Physician-Scientist Early Investigator Program

Are you a Physician-Scientist interested in transitioning to an independent investigator conducting basic, translational or patient-oriented research?

This highly competitive program offers:

- A mentored three-to-five year independent research program
- Extensive resources supporting innovative, high-impact bench-to-bedside research in the world's largest hospital devoted exclusively to clinical research
- Competitive salary and loan repayment opportunities
- Opportunity to serve as principal investigator on clinical trials
- A highly collaborative environment with access to a broad range of scientific and clinical expertise and cutting-edge medical technologies

Who We Are

The Center for Cancer Research (CCR) comprises nearly 250 teams conducting basic, translational and clinical research in the NCI intramural program. CCR's clinical program is housed at the NIH Clinical Center—the world's largest hospital dedicated to clinical research. For more information about CCR and its programs, visit ccr.cancer.gov.

HOW TO APPLY

Learn more and apply via the CCR website:
