Grant opportunities and Grantsmanship tips

Join us for a **90-minute workshop** with
Doug Hurst, Ph.D. and Nicole Lopanik, Ph.D. American Cancer Society

The American Cancer Society awards grants and fellowships to promising scientists and clinicians early in their careers who have innovative hypotheses for all aspects of cancer research. ACS also has sizable grant opportunities open to investigators at any faculty rank.

Workshop objectives:

- Provide overview of American Cancer Society funded grants and research
- Provide “Insider Tips” for a successful application process
- Understand how grants will be evaluated
- Understand success rates in future funding
- Understand on-line resources

Post-docs and professors from all disciplines are welcome

**Wednesday, August 9, 2023
2-3:30PM**

Please mark your calendars now! Formal invite to follow!

Together we're

Attacking Cancer

From every angle

Dr. Doug Hurst, Scientific Director of the Biochemistry and immunology of Cancer program in the Extramural Discovery Sciences Department, oversees peer review and grants management in areas related to DNA and RNA mechanisms, immunology and blood cell development, and tumor biochemistry and endocrinology.

Dr. Nicole Lopanik, Research Program Manager, joined the ACS in 2020. Dr. Lopanik is responsible for organizing the peer review process for research grant applications in the Biochemistry and Immunology of Cancer Program, and management of the large portfolio of grants in this program.
