UNIVERSITY OF MARYLAND, BALTIMORE
INSTITUTE FOR CLINICAL AND TRANSLATIONAL RESEARCH (ICTR)
COMMUNITY ENGAGED RESEARCH (CEnR) PILOT GRANT PROGRAM

Deadline:	CEnR Grant Application – Friday, November 10, 2023, 5 pm (Eastern Time)
Eligibility:	Faculty at the level of Assistant Professor, Associate Professor, or Professor from the University of Maryland, Baltimore (UMB), University of Maryland, Baltimore County (UMBC), or University of Maryland, College Park (UMCP)
Budget:	Up to \$50,000 in direct costs (indirect costs not allowed)
Grant period:	May 1, 2024 – April 30, 2025; Awardees Announced End of January 2024
Application:	Form templates and electronic submission instructions are available https://www.umaryland.edu/ictr/funding/community-engaged-research-cenr-pilot-grant/

CEnR GRANT PROGRAM REQUEST FOR PROPOSALS

The University of Maryland, Baltimore (UMB) Institute for Clinical and Translational Research (ICTR) is pleased to announce the UMB ICTR **Community Engaged Research (CEnR) Pilot Grant** competition to provide starter funds for projects specifically focused on innovative Community-Engaged Research (CEnR) to test novel approaches to addressing health problems through community-engaged implementation that involve faculty from the UMB Schools of Dentistry, Law, Medicine, Nursing, Pharmacy, Social Work, or the Graduate School; UMBC, UMCP, and UMB-community partnerships. Funding is provided through the UMB ICTR internal funding mechanism.

Applications and supporting documents will be accepted via the ICTR Pilot Grants application system in the UMB REDCap.

Applications using an evidence-based framework focusing on diverse populations with regional/national relevance and including collaboration between UMB and partner institution(s) (UMCP, UMBC) will be especially encouraged.

Applications showing that the preparatory activities listed below have already been completed will be favorably reviewed.

- Developed a community research partnership infrastructure (e.g., advisory boards, partnership roles and responsibilities, policies and procedures, memorandums of understanding);
- Facilitated formal and informal meetings with partners to identify shared goals, priorities, research interests, and sharing of resources and funding;
- Facilitated open dialogue and bidirectional learning around challenges and opportunities to address community health needs;
- Explored and sought involvement of potential partners;
- Built research capacity for community partners (e.g., IRB (Institutional Review Board) training, training on research design and methods, etc.);
- Built CEnR capacity for academic partners (e.g., principles of community engagement, 10-Step Framework, etc.).

For faculty who have not yet completed the steps noted above, please, instead of this pilot grant

UNIVERSITY OF MARYLAND, BALTIMORE
INSTITUTE FOR CLINICAL AND TRANSLATIONAL RESEARCH (ICTR)
COMMUNITY ENGAGED RESEARCH (CEnR) PILOT GRANT PROGRAM

mechanism, consider applying for the [ICTR CEnR Partnership Development Voucher Award](#) specifically for developing successful and sustainable community partnerships in preparation for the next CEnR application to be released in Fall 2024 or other extramural CEnR funding mechanisms.

Applications should utilize a milestone-driven approach for proposed projects that will ensure timely generation of tangible products and outcomes within the strict funding period and the approved budget.

To be considered for the UMB ICTR CEnR Grant Program opportunity, proposals must be received by the application deadline. Incomplete applications will not be reviewed.

For questions regarding application guidelines, please email the ICTR Navigator at ICTR-Navigator@umaryland.edu. Further details are on the following pages.

CEnR GRANT PROGRAM GUIDELINES

A. Eligibility

- Any faculty member at the level of Assistant Professor, Associate Professor, or Professor from the UMB Schools of Medicine, Pharmacy, Dentistry, Nursing, Law, Social Work, or the Graduate School, or UMBC, or UMCP is eligible to apply as a Lead Principal Investigator (PI) for an ICTR CEnR Pilot Grant. **UMBC or UMCP Lead Principal Investigators (PIs) must name a UMB Co-PI.** Adjunct or visiting faculty are not eligible to apply.
- Multi-PI applications are allowed – limit to 1 Lead PI (the applicant) and 1 Co-PI. A Multiple PI Leadership Plan describing the respective roles must be included with the application. In multi-PI applications, the Lead PI will serve as the point of contact for communications.
- In addition to a community partner, eligible submissions are encouraged to include collaborations between faculty from a UMB School, UMBC or UMCP. Eligible **community partners** include non-profits such as community service organizations, advocacy groups, neighborhood associations, faith-based organizations, or coalitions, public agencies, and private organizations within the State of Maryland and District of Columbia.
- A Lead PI or Co-PI (if applicable) responding to 2024-2025 CEnR grant opportunity cannot serve as a Lead or Co-PI on another application this round. In addition, the Lead PI or Co-PI (if applicable) is not eligible to respond to the 2024-2025 ICTR ATIP grant opportunity. However, the Lead PI and Co-PI (if applicable) may serve as a non-PI collaborator on other proposals if there is no scientific overlap.
- Not eligible to apply: Research Associates/Instructors, undergraduates, graduate students, and postdoctoral fellows are **not eligible** to apply and cannot be listed as Co-PIs or Co-Investigators. However, they may be listed in other roles in the proposal.
- Eligible submissions must include a timeline of one or more milestones for each Specific Aim with clear outcome endpoints. **The timeline must be realistic for completion within the funding period and with the approved final budget. Regulatory submissions/approvals should not be considered a milestone.**
- CEnR awards cannot be supplements to existing grants. However, the ICTR will consider an application that is ancillary to an existing grant if it adds new specific aims that could

UNIVERSITY OF MARYLAND, BALTIMORE
INSTITUTE FOR CLINICAL AND TRANSLATIONAL RESEARCH (ICTR)
COMMUNITY ENGAGED RESEARCH (CEnR) PILOT GRANT PROGRAM

successfully leverage a new award or renewal. The CEnR project must have an IRB submission independent of the parent protocol.

- PIs and Co-PIs with a previously funded ICTR pilot grant award (ATIP or CEnR) may apply as a Lead PI or Co-PI if the previous project was completed and there is no scientific overlap.
- Applications resubmitting a previous proposal that was not selected for an award must submit an accompanying cover letter describing how the current proposal differs from the original and how the reviewers' comments are addressed.

B. Institutional Regulatory Requirements/Approvals and Training Certificates

IRB Letter of Determination/Approval and other documents are not required at the time of the pilot grant application submission; however, the IRB submission time-burden may be significant, so **applicants are strongly encouraged to begin this process early**. Projects receiving a notice of award should plan to have ALL required regulatory approvals and other supporting documents prior to **May 1, 2024**.

- **The IRB designation/approval letter must match the CEnR proposal, and the PI must match the CEnR Lead PI's name.**
- The application team list and IRB team list **must match**.
- Review the [UMB IRB website](#) for required training of UMB and non-UMB team members engaged in research.
- UMBC and UMCP applicants should contact their respective IRBs for requirements for research conducted at UMBC, UMCP, and/or UMB, and community partner sites. Please consider the need for an IRB reliance letter.
- If the HSR project is a clinical trial ([ClinicalTrials.gov](#)), the protocol will also need to be registered in ClinicalTrials.gov and all team members must have current Good Clinical Practice (GCP) training.

All other required institutional registrations/approvals (e.g., Data Use Agreements, Biosafety registrations, Clinical Engineering clearance of devices, Radiation Safety registration, etc.) must be obtained prior to initiating any research activities for which the certification/registration/approval is required.

Depending on the project, the ICTR may request additional supporting documents.

C. Conflicts of Interest (COI)

At the time of application, review process, before funds are awarded, and throughout the project period, it is the responsibility of the awardee and all members of the study team to report any financial or fiduciary interests that might appear to present a conflict of interest (COI). These interests must be reported to the ICTR and the Conflict-of-Interest Officer, UMB Research Integrity Office. The presence of a COI does not automatically disqualify investigators from receiving this award but will require the review and management of this conflict by the COI Officer. Failure of any member of the study team to disclose all outside interests could result in this award's termination and the disallowance of all study costs. UMB's COI Policy information, including examples of what constitutes an outside interest, may be found at <https://www.umaryland.edu/oac/areas-of->

UNIVERSITY OF MARYLAND, BALTIMORE
INSTITUTE FOR CLINICAL AND TRANSLATIONAL RESEARCH (ICTR)
COMMUNITY ENGAGED RESEARCH (CEnR) PILOT GRANT PROGRAM

[responsibility/conflict-of-interest/](#)

UMBC's COI Policy information may be found at <https://research.umbc.edu/office-of-research-protections-and-compliance/>

UMCP's COI Policy information may be found at <https://research.umd.edu/coi/>

D. Potential Project Topics

- Projects may cover a wide range of topics, including but not limited to the representative topics below:
 - Development of clinically relevant applications
 - Develop apps and devices that improve delivery and exchange of health information.
 - Comparative effectiveness research studies
 - Knowledge transfer to providers or community
 - Novel approaches to partnering with communities to enhance research.
 - Community-based research focused on areas of health disparity such as diabetes, cardiovascular disease/hypertension, mental health, cancer, and kidney disease.
 - Tests of innovative implementation strategies to optimize uptake of solutions at the community level.
- Examples of UMB ICTR-supported community-engaged type projects in the past:
 - Adapting a Parent-Child Group Intervention for Mothers with Substance Use Disorder
 - Addressing Racial Disparities in Autism Diagnosis and Treatment
 - Exploring recovery-oriented capital support factors to sustain opioid addiction recovery.
 - Psychosocial Screening Methods for Dental Settings
 - Evaluating relationships between interventions, social determinants of health and hospital readmissions in a community
 - Social capital and psychological burden during the COVID-19 outbreak.
 - Policies to Prevent Spread of COVID-19: Implications for Health Equity among Maryland Families of Preschool and School-Age Children
 - Eliminating Asthma and Obesity Disparities among Children in Baltimore City
 - Identification of barriers to recovery following traumatic brain injury in older adults

For past awardees and projects, visit <https://www.umaryland.edu/ictr/funding/ictr-pilot-grant-awardee-news/#d.en.710989>

E. Funding Restrictions

- Requests must be no more than \$50,000 in direct costs. Budget requests must be realistic and **well-justified** in the budget justification.
- Routing through Kual Research is not required.
- **Required regulatory approvals and agreements**, as well as other supporting documents, must be obtained prior to disbursement of funds. See Section B above. **Applicants are**

UNIVERSITY OF MARYLAND, BALTIMORE
INSTITUTE FOR CLINICAL AND TRANSLATIONAL RESEARCH (ICTR)
COMMUNITY ENGAGED RESEARCH (CEnR) PILOT GRANT PROGRAM

strongly encouraged to begin the submission process early.

- Funds will be distributed in two disbursements, with the second disbursement contingent upon submission of a satisfactory progress report at 6 months and spending down the first disbursement.
- **Funding will be May 1, 2024 – April 30, 2025. No-cost extensions may be granted on a case-by-case basis with strong, written justification for those with funds remaining at the end of the award period.**
- **Allowable expenses:**
 - Research supplies (purchase or equipment rental; new equipment costs should be no more than 20% of the total budget); recruitment and compensation of study participant costs; research training for community partners.
 - Salary support for all faculty-level team members listed on the grant cannot exceed \$5,000 of the **total** budget. The \$5,000 allowance is inclusive of fringe benefits. Faculty-level team members on more than one application cannot exceed the \$5,000 salary limit across all projects.
 - We will consider payments to an outside partnering organization, where appropriate, as a “service provider” (not as a sub-award). This expense should be justified and itemized under “Other Expenses” in the budget template form. However, funding for faculty from any of the University System of Maryland (USM) institutions must be included in the \$5000 total faculty salary funding limit as noted above.
 - Travel: ATIP funds up to \$1,000 may be used for travel with strong justification establishing the essential need for the conduct of research. CEnR funds **cannot** be used for travel to present results at established meetings or conferences.
 - Official quotes from the provider of services, supplies, and/or equipment should be included.
 - Publication fees related to the project. Limit \$2,500 total. Please consider the HSHSL (Health Sciences and Human Services Library) open-access publishing fund available to junior faculty. For more information, visit <https://www.hshsl.umaryland.edu/services/apc.php>
- **Unallowable Expenses:**
 - **Indirect costs cannot be included** in the budget.
 - Administrative support, alterations or renovations of laboratory space, purchase of laboratory or office furniture, purchase of periodicals or books, tuition, refreshments, phone services, and professional societies membership dues are not allowed.

F. Reporting Requirements

- Lead PIs and Co-PIs (if applicable) of all funded projects must have a milestone telephone update three, six, and nine months from the May 1, 2024, start date. A **written report** on the progress of the milestones and budget expenditures will be required at the sixth-month time period and a final, written progress report will be due within 30 days of the end of the award period. Failure to attend milestone telephone updates and submit progress reports in a timely manner can have significant implications for the project and may result in termination of funding.
- Semi-annual (mid- and end of year) reports will be requested for several years to track grant

UNIVERSITY OF MARYLAND, BALTIMORE
INSTITUTE FOR CLINICAL AND TRANSLATIONAL RESEARCH (ICTR)
COMMUNITY ENGAGED RESEARCH (CEnR) PILOT GRANT PROGRAM

applications/awards, publications, and/or intellectual property disclosures arising from the work in this project.

ROLE OF THE ICTR NAVIGATOR

ICTR Navigators will provide guidance and answer questions related to the application and review process, the scope of work suitable for funding, and post-award activities. They will assist research teams in identifying resources needed for successful completion of research projects, including the referral of researchers to appropriate services, university cores of services, and available sources of support for translational research. They will review applications to ensure compliance with submission guidelines and may contact investigators to provide additional information. Throughout the award, research navigators serve as project managers, monitoring the progress of the projects, and may provide guidance, resources, and feedback to ensure the proposed translational milestones are met.

CEnR APPLICATION PROCESS

UMB applicants: The CEnR application link can be found under the **Templates and Electronic Application** section, item 3, found here <https://www.umaryland.edu/ictr/funding/community-engaged-research-cenr-pilot-grant/>. You will be prompted to enter your UMID username and password.

UMBC and UMCP applicants: Please request an application via this [link](#) or paste the following in your browser <https://rs.igs.umaryland.edu/surveys/?s=TFXHYDRCPF> (developed in REDCap). Please provide the following information:

- Name
- Department/Section
- Campus email
- Best contact number
- Select “Community-Engaged in Research Grant (CEnR)” for proposal type.
- UMB Co-PI name
- Very brief project description (1 or 2 sentences)

Once your request is submitted, you will receive an ICTR-Navigator@umaryland.edu email with a link to the application. Please email the ICTR Navigator if you do not receive the link within 3 business days. Please make sure to request an application in time to allow for a complete application submission. Incomplete applications will not be reviewed.

Prepare each of the following sections and submit electronically via the CEnR Application link. **Information about formatting is found in the following Section M.** The electronic application is maintained in the UMB REDCap system. See the **required budget and milestones templates and optional cover letter template available here** <https://www.umaryland.edu/ictr/funding/community-engaged-research-cenr-pilot-grant/>

A. Cover Letter (Limited to one page)

- Title of Project. The title of project must match the title on the IRB Letter.

UNIVERSITY OF MARYLAND, BALTIMORE
INSTITUTE FOR CLINICAL AND TRANSLATIONAL RESEARCH (ICTR)
COMMUNITY ENGAGED RESEARCH (CEnR) PILOT GRANT PROGRAM

- Names, academic ranks, and appointments of the designated primary (Lead) PI and one Co-PI (if applicable) and any faculty member to receive financial support. Lead PI name must match the PI on the IRB letter.
- Salary support amounts requested for each faculty-level team member listed on the grant. Combined salary for all faculty-level team members cannot exceed \$5000 of total budget.
- Signature of Lead PI, Co-PI (if applicable), as well as any faculty-level team member to receive financial support.
- For each of the above, include their corresponding, designated signing official for their institution (see cover letter template at [UMB ICTR website, CEnR FOA page](#)):
 - UMB: School Dean or Department Chair
 - UMBC and UMCP: College Chair or Associate Dean for Research

B. *Abstract (Limited to one page. See section M below for formatting)*

The abstract is **not included** in the 5-page Research Plan. The abstract **should not** contain proprietary confidential information. The abstract should include:

- A brief background of the project.
- The significance of the proposed research.
- The unique features, new collaborations, and innovation of the project.
- The methodology (action steps) to be used.
- Expected results.
- Relevance to the translational nature of the ICTR CEnR Pilot Grant Program.
- Potential for improving the health of patients, including underserved or marginalized/minoritized populations, within the next 3-5 years.

C. *Specific aims, objectives, or hypotheses (Limited to one page. See section M below for formatting)*

D. *Research plan (Limited to five pages. See section M below for formatting). The abstract, specific aims, and references are separate from the research plan.*

The research plan should include the following sections:

- **Brief Introduction:** This section is intended to help orient the reviewers to better understand the scientific basis for the project, why the work is being proposed as well as the suitability of the research for ICTR CEnR Pilot Grant funding. Any new collaborations or highly innovative aspects should be succinctly noted. Relevance to the translational nature of the CEnR program should also be indicated.
- **Project Milestones and Timeline:** Submissions must include a timeline of one or more milestones for each Specific Aim with clear outcome endpoints. The timeline must be realistic for completion within the funding period May 1, 2024 – April 30, 2025, and with the approved final budget. This summary may be presented as a chart, a paragraph, or incorporated throughout the experimental design. Milestones should highlight specific goals to be attained relative to the specific aims and, when appropriate, hypotheses to be tested. Milestones must include both the scientific objectives of the application and the procedural issues involved in

UNIVERSITY OF MARYLAND, BALTIMORE
INSTITUTE FOR CLINICAL AND TRANSLATIONAL RESEARCH (ICTR)
COMMUNITY ENGAGED RESEARCH (CEnR) PILOT GRANT PROGRAM

executing them in a realistic and achievable way. If new techniques, new populations, or new collaborations are utilized to reach these milestones, they should be emphasized. All grants must be organized towards the completion of project- and/or time- dependent milestones.

NOTE: *In addition to the milestone/timeline summary presented in the research plan, you must include a **Project Milestone Timeline** document (see section G below).*

- **Background (including Preliminary Results, if available), and Significance:** In addition to scientific background and significance, this section may indicate how success of the pilot grant will affect subsequent research and how it enhances translation. Please describe the community health concern that will be addressed through the academic-community partnership. The material on Significance should indicate relevance to the overall target of clinical translation. It should also clarify how the research will advance the field and **should also discuss the project's potential for improving the health of patients within the next 3-5 years.**
- **Research Design:** Method description should be sufficiently detailed to convince reviewers of feasibility and validity. Details should focus on the novel aspects of the project rather than published or standard techniques.

Where appropriate, provide inclusion/exclusion criteria for each study group(s) and each control group(s) (if planned), and briefly outline recruitment, retention, recruitment/study site(s), consenting, and compensation plan for each. If planning for advisory panels, describe the criteria for participation, how you will recruit panel/group members, consenting (if needed) and compensation.

A power calculation and statistical plan must be included to support the study hypothesis and/or specific aims. For human subjects' research, specify the number of subjects/controls you expect to enroll or include in your analysis, the expected effect size, the power, and the statistical methods you will use with respect to each outcome measure. You must show that your methods for sample size and data analysis are appropriate given your plans for assignment of participants and intervention delivery.

If you are unsure about a statistical plan providing sufficient information, please consider an ICTR Biostatistics Core consultation <https://www.umaryland.edu/ictr/investigator-resources/ictr-biostatistics-core-services/>

Quantifiable goals for the completion of each milestone should be delineated.

- **Statement of Collaborative Effort:** **Include a specific statement on how the collaboration between investigators from each school or community partner is necessary to further the proposal's goals.** Include processes for maintaining communication and interactions between the schools and between UMB, UMBC, UMCP and community partners and monitoring equitable distribution of intellectual involvement. Describe what will be the roles of each partner during project implementation and what are the expected contributions/benefits of the partnership for the academic and community partners.
- **Anticipated Problems and Possible Solutions:** Any anticipated experimental or interpretive problems should be addressed, with alternative approaches described when possible. The

UNIVERSITY OF MARYLAND, BALTIMORE
INSTITUTE FOR CLINICAL AND TRANSLATIONAL RESEARCH (ICTR)
COMMUNITY ENGAGED RESEARCH (CEnR) PILOT GRANT PROGRAM

feasibility of using alternative approaches to complete the project within the constraints of the presented ICTR CEnR budget as well as the strict 12-month time limit of this grant must be assured in the application. All risks and drawbacks from using any proposed alternative approach must be addressed, especially if human subjects are involved.

- **External Funding Plan:** Provide a description of how the results of this pilot project will inform or support subsequent applications for extramural funding. Specifically, identify NIH, PCORI, AHRQ, or other external funding opportunities that the team will be prepared to apply for within 18 months of the award's start.

E. Comprehensive budget/Detailed budget justification

- Applicants must use the budget template available on the [UMB ICTR website, CEnR FOA page](#)
- The school affiliation of team members must be noted on the budget template, including the school affiliation of the to-be-determined team members.
- Cross institutional applications must specify which institution will incur each expense listed on the budget.
- The budget **should** be **itemized** to less than \$1,000.
- List each component of equipment with the amount requested separately and justify each purchase.
- The budget **MUST** include an explanation of other funding sources that will be used to cover costs not covered by ICTR CEnR pilot grant funds.
- A **detailed** budget justification is required for salary, supplies, equipment, travel for the research, and any other expenses required to complete the study. For individuals receiving salary support, provide a brief paragraph in the budget justification about their role and qualifications.
- Recent, official quotes for budgeted services, supplies, and equipment should be included.
- ALL changes to the budget must be submitted **BEFORE IMPLEMENTATION** for review and final approval by the ICTR Leadership Council and may result in withdrawal of funding if the project did not receive the appropriate approvals.

F. Biographical sketch information

- A biographical sketch using the most recent NIH template version for the PI(s) and other faculty-level study team members and resumes for non-faculty team members (5-page limit each). Team members have any role in the project regardless of whether they will receive salary support, including the PI(s). All team members must be listed in the IRB application.
- Full "Other support" pages from PI(s)

G. Project Milestone Timeline

- Applicants **MUST** use the template provided on the [UMB ICTR website, CEnR FOA page](#). The project timeline must include one or more milestones for each Specific Aim described in the research plan and the time required for each activity.
- The timeline **must** be realistic for completion within the funding period and final approved budget.

UNIVERSITY OF MARYLAND, BALTIMORE
INSTITUTE FOR CLINICAL AND TRANSLATIONAL RESEARCH (ICTR)
COMMUNITY ENGAGED RESEARCH (CEnR) PILOT GRANT PROGRAM

- Please note that IRB submissions/approvals or subsequent grant applications/planned publications **should not** be included in this milestones' timeline.

H. Reference list of up to 30 references

I. Internal and External Reviewers

You must submit the contact information of two internal and external reviewers. For your convenience, we have provided a **template as a guide to the data to be entered in the electronic application**. Take care to ensure that no conflict of interest (COI) exists between the reviewers and you, the Co-PI, and Co-Investigator(s) (if applicable), or any other person with a major professional role in your application. The peer-review system relies on the applicant's professionalism and reviewers to identify any COI that may affect the integrity of the peer-review process.

Examples of a reviewer COI:

- The reviewer is planning a collaboration with anyone with a major professional role on your application or another application in this round.
- Within the past three years, the reviewer has published with, has collaborated with, or has been in a mentoring relationship with any person on the application who has a major professional role.
- The application includes a letter of support or reference letter from the reviewer.
- The reviewer is an advisor for the proposal under review or for a grant held by anyone playing a major professional role on the application.
- The reviewer has an indirect financial interest: The reviewer will have received more than \$10,000 (in the form of honoraria, stocks, or fees) from you over the period from one year ago through the end of the proposed project.

Not considered a COI:

- The reviewer has an indirect financial interest of less than \$10,000.
- The reviewer freely donates reagents or other materials to the proposed project, and these reagents or materials would also be available to other researchers.
- The reviewer, you, and a person with a significant role on the proposed project, contribute data, reagents, specimens, etc., to the same repository or database.
- The reviewer is a member of a research network that involves a person with a significant role in the proposed project.
- The reviewer is a co-author of a non-research publication (e.g., review, commentary) or a mega multi-authored publication with a person with a significant role in the proposed project.

Please refer to CEnR GRANT PROGRAM GUIDELINES, Section C, pages 4 & 5, for the link to your institution's COI policy.

J. CEnR Key Personnel Information

You are required to complete a brief CEnR Key Personnel Information form in the electronic application for each person on your proposal's team. For your convenience, we have provided a

UNIVERSITY OF MARYLAND, BALTIMORE
INSTITUTE FOR CLINICAL AND TRANSLATIONAL RESEARCH (ICTR)
COMMUNITY ENGAGED RESEARCH (CEnR) PILOT GRANT PROGRAM

template as a guide only to what information is needed to be entered into the fields in the electronic application. For the Lead PI and Co-PI (if applicable), you will also need to provide additional, NIH-required information on gender, race, etc. as well as the NIH eRA Commons Username and a **16-digit ORCID author ID**. Information about the 16-digit ORCID author ID can be found here <https://guides.hshsl.umaryland.edu/impact/authorid>. If you believe you have an ORCID, but cannot recall, type your name in the search field on the ORCID home page <https://orcid.org/> or submit a request via <https://support.orcid.org/hc/en-us/requests/new>.

K. Regulatory Approvals

If already available. Do not upload regulatory documents that are not specific to this application. Regulatory document titles must match the title of the project. To avoid delays in the project's start, investigators are strongly encouraged to initiate necessary approvals prior to grant submission or during the grant review period. Projects with regulatory approvals in place or underway at the time of submission will receive additional consideration.

L. Multiple PI Leadership Plan

Only for multi-PI applications [limit to 1 Lead PI (the applicant) and 1 Co-PI]. A Multiple PI Leadership Plan describing the respective roles must be included with the application. In multi-PI applications, the Lead PI will serve as the point of contact for communications; however, the Co-PI is expected to attend all milestones update calls with the UMB Research Navigator.

M. Formatting Guidelines

- **Font size:** Must be 11 points or larger. Smaller text in figures, graphs, diagrams, and charts is acceptable, if it is legible when the page is viewed at 100%. If you are converting to PDF, some PDF conversion software reduces font size. It is important to confirm that the final PDF document complies with the font requirements.
- **Font types:** Aral, Georgia, or Helvetica
- **Type density:** Must be no more than 15 characters per linear inch (including characters and spaces).
- **Line spacing:** Must be no more than six lines per vertical inch.
- **Text color:** black
- **Name of the applicant** (Last name, First name) should appear in the top right-hand corner of each page.
- **Page numbers** should appear on the bottom right-hand corner of each page.
- **Paper Size and Margins**
 - Standard letter paper size (8 ½" x 11").
 - Provide at least one-half inch margins (½") - top, bottom, left, and right - for all pages.

ICTR PILOT GRANT REVIEW CRITERIA AND PROCESS

Applications will be peer-reviewed – including a diversity advocate – using NIH scoring and will be evaluated and scored using the following six criteria:

1. Relevance to translation: Are there plans to move the project through to the next step along the research pathway?

**UNIVERSITY OF MARYLAND, BALTIMORE
INSTITUTE FOR CLINICAL AND TRANSLATIONAL RESEARCH (ICTR)
COMMUNITY ENGAGED RESEARCH (CEnR) PILOT GRANT PROGRAM**

- 2. Scientific impact, novelty, and merit, including experimental design.**
- 3. Diversity, Equity, and Inclusion:** Will this application benefit traditionally underserved or marginalized/minoritized populations?
- 4. Feasibility of project completion within defined budget period**
- 5. The creation or potential for creation of collaborations** between investigators and academic-community partnerships
- 6. Whether or not the project's PI is a junior investigator** and/or will promote the development of new translational researchers by **moving junior or senior investigators into a new research area**
- 7. The plans for submitting a grant application for external funding.**

ACKNOWLEDGING UMB ICTR

All publications, abstracts, poster presentations, grant/funding applications, intellectual/technological disclosures, developments, and licensing resulting from research supported by the UMB ICTR CEnR Grant Program should cite the **University of Maryland, Baltimore, Institute for Clinical & Translational Research** as a contributing source of support. Please include the following citation:

"We acknowledge the support of the University of Maryland, Baltimore, Institute for Clinical & Translational Research (ICTR) and the National Center for Advancing Translational Sciences (NCATS) Clinical Translational Science Award (CTSA)."
